## PIXEL™

Pixel's structured pattern epitomizes today's tech-driven world. Its rigid, industrial, lines give way to softly blurred silhouettes, helping balance the decor and the objects behind it.

PATTERN TO SCALE

All metal décors are produced using industrial grade materials. As is common in industrial sheet metals, some surface tooling marks, light scratches, or slight color variation may exist, adding authenticity to the character of the product. This variation is part of the aesthetic interest of metallic products. The metal pattern starts and stops differently from sheet to sheet.

For side-to-side or top to bottom applications, a reveal is suggested, as this décor is not intended to edge align.

Thermoforming is not available for this décor.

*Not all decors are available in every gauge or sheet size and may vary by resin. Gauge tolerance is ± 10%. Each color layer adds .010" to the thickness. Colors may differ between the page and the product. For the most accurate color representation, please consult physical samples.*
