

Décors | Metallic

TAKE II™

Price Group: \$\$\$
 PAT. US D765,884 S1

Take II's hexagonal punches, repurposed aluminum scrap from our Honeycomb décor, shimmer in the spotlight for an industrial flair and champion the recycled materials movement.

PATTERN TO SCALE

All metal décors are produced using industrial grade materials. As is common in industrial sheet metals, some surface tooling marks, light scratches, or slight color variation may exist, adding authenticity to the character of the product. Due to the overlapping of metal pieces, slight surface imperfections may occur. This variation is part of the aesthetic interest of metallic products.

Thermoforming is not available for this décor.

To see more images of this décor, visit the [Lumicor website](#).

SUSTAINABLE FEATURE | This décor is created using waste material from the production of industrial aluminum sheets.

Not all décors are available in every gauge or sheet size and may vary by resin. Gauge tolerance is ± 10%. Each color layer adds .010" to the thickness. Colors may differ between the page and the product. For the most accurate color representation, please consult physical samples.

MATERIAL SPECIFICATIONS

RESIN TYPES & SIZES

Lumiclear gauges:

- 1/4" .236" (6 mm)
- 3/8" .354" (9 mm)
