ALABASTER SHADE™

This high resolution digital print mimics the natural appearance of deep-toned alabaster stone. Pair a digital stone décor with Lumilight for an illuminated focal point.

PATTERN TO SCALE

This décor requires either an opaque or semi-opaque add-on to create the appearance of stone.

Ask your local Lumicor representative about a two-panel repeat for installing panels that will be aligned.

Thermoforming is not available for this décor.

To see more images of this décor, visit the [Lumicor website](#).

Not all decors are available in every gauge or sheet size and may vary by resin. Gauge tolerance is ± 10%. Each color layer adds .010" to the thickness. Colors may differ between the page and the product. For the most accurate color representation, please consult physical samples.
